

**\* NEW \***  
**ONLINE SKILLS & DRILLS**

**First Quarter Training, Jan-March 2017**

Want some short drills to train at home but lacking creativity? Need ideas on new skills to train? Have limited space for training? Beginning January 1 2017, Jennifer Crank of IncrediPAWS Dog Agility will be offering Online Skills & Drills. This new format will present a different drill or new skill each week for the first 3 months of the year. That is 13 various training drills you can set up and work with your dog. Each drill will require no more than 5 obstacles and will be able to be performed in a limited space. In addition to being presented with these skills & drills, each lesson will be accompanied by video demonstration. The cost for the first quarter is \$65. That is only \$5 a week!!! This class will be run through the Awesome Paws Agility Academy so an account will be needed to view the material. There are no working spots or video review.
